APPI E News

Opportunity for APPI Members to Participate in the Alberta Wildfire Mitigation Strategy (AWMS) Online Engagement Session

The Ministry of Forestry and Parks is developing an Alberta Wildfire Mitigation Strategy (AWMS) to guide mitigation efforts at landscape, community, and home owner levels. This strategy aims to enhance the resilience of Indigenous communities, municipalities, critical infrastructure and forest values across the entire province. **An online engagement session for the AWMS has been scheduled for July 22, 2024 from 9:00 AM – 10:30 AM.** This session will provide an opportunity for participants to learn about the strategy's development, understand the seven guiding themes, and provide feedback. The session will feature an overview presentation, a question-and-answer segment, and an open discussion. Department staff in attendance will include a wildfire specialist and a policy advisor. APPI members who would benefit from and contribute to a productive and focused discussion on the AWMS are welcomed to participate. Please email the APPI Office at admin@albertaplanners.com for more information, on or before July 17, 2024.
